DETAILED ACTION

Status of Claims

Claims 21-26 are pending in the application.

Receipt is acknowledged of Applicant's amendment / response filed on May 12, 2004 and that has been entered. Claims 17 and 18 have been canceled. Claims 24 and 25 have been amended. Claim 26 has been added.

Response to amendments

Applicant's arguments / amendments are persuasive with respect to the rejection of claims 24-25 under 35 U.S.C. § 101. The objection of claim 24 has been obviated with Applicant's amendment. The rejection has been withdrawn and therefore, all pending claims have been allowed.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

Hofle et al. (WO 93/10121) teach the epothilones, process for preparing the same and their use as medicaments and as plant protecting agents. The instant compounds differ from the prior art by having a core intermediate epothilone ring without a 5-membered heterocyclic ring structure (1,3 thiazole) in X position. The prior art compounds neither teach nor render obvious the instant claimed compounds and there is no suggestion or motivation to modify the compounds of other prior art to obtain the instant compounds. Therefore the instant claims are allowable over the prior art of record.
